## Project Title: Los Angeles Clippers Website

Though the name “Los Angeles Clippers” is relatively new in the NBA, they have a rich history of being in different locations and different names. This is why I want to create multiple pages that showcase the different cities in America that they represented, along with the different names that they went by. After this, I also want to provide information about the Clippers and how they became the team they are today.

- **Intro page**
  - Introduction about the founding of the Clippers and what they are.
- **History page**
  - Talk about the history of the Clippers and the different teams.
  - Buffalo Braves
  - San Diego Clippers
- **Notable players**
  - Chris Paul, Blake Griffin, DeAndre Jordan, Bob McAdoo
- **Current notable players**
  - Russel Westbrook, Paul George, James Harden, Kawhi Leonard
- **Legacy**
- **Sources**
